

Keep your storefront accessible.

Skip the overlay widget.

Not an overlay. We change the actual Shopify theme files. Demand letters go after missing alt text, unlabeled forms, age gates, and keyboard traps. Pay \$2,000 once for two years, or \$99/month for a two-year license, then month to month. Sample audit at liquidrails.ai/ada

2-YEAR LICENSE

\$2,000

one-time

24 months prepaid. Better value than monthly.

MONTHLY BILLING

\$99

/mo

2-year license, then month to month. Not cancel-anytime.

1. Scan

We fetch your live pages and score them against WCAG 2.1 AA. You get a clear pass, warn, and fail list.

2. Fix

We edit the theme files themselves. Real Liquid, HTML, and CSS. Not an overlay toolbar.

3. Cover

Re-run the scan anytime. We patch theme changes. Two years prepaid, or \$99/mo for two years then month to month.

WHAT THE SCAN CHECKS

The issues that show up in demand letters

- Image alt text
- Skip links and landmarks
- Form labels
- Link text
- Autoplay media
- Overlay widgets
- Page language and titles
- Heading hierarchy
- Icon button names
- iframe titles
- Age-gate accessibility
- Tab order

INSTALL TIMELINE

Depends on your theme

LiquidRails theme stores

Scan first, then patch. A few business days after we review the fail list.

Custom or third-party themes

Often a week or more after the first scan, depending on the theme.

Brand portal access

We turn on the scan after the first remediations land.
